OBJECTIVE

Recently graduated with a degree in Software Engineering, having built a solid foundation in web development and data analysis through academic projects and hands-on internship experience. Eager to apply strong analytical and problem-solving skills to drive impactful solutions in a dynamic professional environment.

EXPERIENCE

Co-op Training – Web developer | SCRAMBLEBIT COMPANY | July 2024 – September 2024

- Developed full-stack websites following the SDLC methodology.
- Implemented frontend functionality using modern web technologies.
- Built robust backend solutions with PHP and MySQL.
- Participated in code reviews and sprint planning meetings.
- Collaborated with senior developers on feature implementation.

EDUCATION

Bachelor's Degree in Software Engineering

Okan University | 2025

GPA of 3.1 out of 4

OTHER

- **Courses:**
  - **Databases and SQL for Data Science with Python** | IBM | August 2025
  - **Python for Data Science, AI & Development** | IBM | July 2025
  - **Data Visualization and Dashboards with Excel and Cognos** | IBM | May 2025
  - **Excel Basics for Data Analysis** | IBM | April 2025
  - **Introduction to Data Analysis** | IBM | March 2025
- **Graduation Project: Car Parking System**
  - Designed and developed a Car Parking System enabling users to reserve parking slots online and securely access the facility using QR code authentication.
- **Skills**:
  - Programming Languages: Python, PHP, JavaScript
  - Databases: MySQL
  - Web Technologies: HTML, CSS, Bootstrap
  - Software Development Life Cycle
  - Data Analysis Tools: Excel, Power BI & SQL
  - Agile Methodology
  - Version Control: Git & GitHub
  - Data Preparation and Visualization
  - Attention to Detail
  - Problem Solving
  - Time Management
  - Analytical Thinking
  - Adaptability
  - Team Collaboration
  - Critical Thinking
